of Elevator Consultants

## ***United in Atlantic City in 2012***

On September 10 – 13, 2012, four prominent elevator organizations will partner in Atlantic City, New Jersey in sponsoring a United convention and exposition. Located in the heart of the Northeastern United States, Atlantic City has always been the highest attended elevator show. Atlantic City has proven to be an industry favorite with the fast-paced excitement and non-stop activities that are part of the city that's "always turned on". The global elevator community will be invited to participate in this 2012 focal point for a North American industry gathering. The consolidation of these four annual conventions will enhance each association's ability to serve their sector of the elevator industry. Built on the foundation of an exceptional trade show and unsurpassed educational programs, this event will benefit the entire industry.

National Association  
of Elevator Contractors

The program will consolidate all standard activities of the four organizations into one convention. To meet their specific constitutional requirements, each organization will conduct their regular business meetings. All educational, exposition, social, and networking activities will be consolidated. A Joint Leadership Team representing all four organizations will contribute equally to the planning of this united effort.

Some of the benefits of the consolidated event will be:

- Combination of market strength, ideas, and innovation
- A networking opportunity for all factions of the North American elevator industry
- Educational topics addressing every aspect of the industry
- Opportunity for shared members of the organizations to meet continuing education requirements for many certification needs in one event

## Agenda Highlights

United in Atlantic City 2012's first official day of events will be September 10. It will kick off with the Golf Tournament to be followed by Exhibit Set Up and Educational Sessions. The evening will feature the Presidents' Welcome Reception followed by the Elevator Escalator Safety Foundation's fundraising event. Throughout the remainder of the program, attendees will enjoy many educational sessions, social functions and networking opportunities. Once the trade show opens its doors, the commitment of the 200 exhibitors to this unified program will be evident. Exhibits will be open to the industry September 12<sup>th</sup> and 13<sup>th</sup>. The Dinner Dance and Dregs Party are two social experiences everyone will enjoy. If you are involved in the elevator industry, you will not want to miss this monumental event!

Contractors Association**

## Hosting Organizations

Canadian Elevator Contractors Association – CECA is an organization of elevator contractors and suppliers serving the interests of independent elevator contractors and vertical lift suppliers in Canada for over 30 years, working to nurture the relationships between the two in various areas.

**International Association  
of Elevator Consultants**

International Association of Elevator Consultants – IAEC's purpose is to bring together qualified professionals so as to improve the general function of the industry in all its phases, and to create a forum for professionals in the vertical transportation industry to exchange ideas, reports, innovations and regulations, all of which are designed to improve the vertical transportation industry.

National Association Elevator Contractors – NAEC has proudly served the elevator industry for over 60 years. NAEC is an association of elevator contractors, and suppliers of products and services, and other industry professionals. The Association serves the interests of the industry by promoting safety in the elevator industry advocating excellence in the management of member companies. Membership services include educational seminars, conventions/expositions, and industry communications. CET™ (Certified Elevator Technician) and CAT™ (Certified Accessibility and Private Residence Lift Technician) certification programs are sponsored and administered by the NAEC.

**National Association  
of Elevator Contractors**

National Association of Elevator Safety Authorities International – NAESA International's mission is to promote current codes and standards, teach and educate stakeholders, certify inspectors, and assist the populace in enhancing elevator safety and understanding new and existing elevator technology. For 40 years, NAESA International has been dedicated to being one of the recognized leaders in education and certification of elevator personnel and becoming a worldwide advisor and authority on elevator safety. NAESA International will be celebrating 25 years as an organization accredited by ASME to certify elevator inspectors at this event.
